

Investing in the lifespan of the St Arnaud Pool

Assessing the St Arnaud Pool to prolong its lifespan where possible

\$60,000+

- 1 Council's Infrastructure Department recognise the importance of the only pool in the north of our Shire that our communities in this region rely on
- 2 Investigative planning is required to gather information and understand the current condition of the pool shell to prolong the life of this important asset
- 3 Preserving access to this much-loved asset, which has recently benefited from a new pool cover and shade structures, is a key objective of Council's advocacy

With facilities including a seven-lane, 50 metre solar heated pool, toddlers' wading pool, one metre diving board and three metre diving board, this is the only outdoor pool in the north of our Shire that our communities in this region rely on to keep cool, especially in the summer months.
