#### Marnoo Township Shanahan Park

##### KEY RECOMMENDATIONS FOR DESIGN PRINCIPLES

- H CENTRAL GATHERING**  
Support open views and connection into Shanahan Park. Provide seamless and accessible pathways. Include a variety of opportunities for seating - seats with backs, rock boulders, deck seat and irrigated lawn areas. Accessible drinking fountain, rubbish bin and bike racks.
- I ACCESSIBLE NATURE PLAY AREA**  
Incorporate a range of natural play elements including digger, hand operated water pump, reclaimed sleeper paving, indigenous planting, rock boulder & log edges, sand play/ shopfront, log balancing, creek bed and shade overhead. Provide natural elements for imaginative and creative play. Slide down mound and indigenous low growing vegetation, cubby and many seating opportunities.
- J PICNIC & SOCIAL GATHERING**  
Extend existing shelter to cover BBQ area. Provide additional picnic settings and connections to accessible pathway throughout with irrigated lawn areas with additional shade trees for summer sun protection
- K FORMALISED CAR PARKING**  
Reconfigured pulloff area for park to incorporate formalised gravel right angle parking with accessible pathway connections to facilities
